EDUCATION

VIT UNIVERSITY

Bachelor of Technology - CSE AI ML; CGPA: 8.68

Chennai, India

Sep 2021 - Present

Courses: Data Structures and Algorithms, Design and Analysis Of Algorithms, Object - Oriented Programming, Machine Learning, Deep Learning (Familiar), Database Management Systems, Operating Systems

SKILLS

- **Languages:** Python, Java
- **Technologies:** MySQL, HTML, CSS
- **Frameworks:** Flask, Streamlit
- **Tools:** Git/GitHub
- **Soft Skills:** Workflow Optimization, Effective Communication, Strategic Negotiation, Prioritization Proficiency

EXPERIENCE

SMARTINTERNZ | AI ML EXTERN

Aug 2023 - Nov 2023 | Remote

- Developed a **machine learning** model using **XGBoost** algorithm for forecasting T20 cricket match runs, achieving **98.6% accuracy** through comprehensive data preprocessing, strategic feature extraction, and intensive model optimization.
- Launched a robust **Flask** web application for real-time predictions, integrating **HTML** and **CSS** on Render, reducing response time by 30%.

SAHAYATHA CLUB | TECHNICAL TEAM MEMBER

Feb 2023 - Aug 2024 | Chennai, India

- Worked on frontend and some backend components for the club's website through writing SQL queries and Java code, achieving a measurable increase in sign-ups by 30% within three months.
- Spearheaded the planning and execution of **four hackathons during a six-month period**, resulting in enhanced member engagement and participation that pushed total active members to over 250.

PROJECTS

PREDICTIVE MAINTENANCE | Project | Source Code

- Engineered a predictive maintenance solution using **Python**, **HTML**, **CSS**, and **Flask** to detect machine failures, utilizing **ML** and **explainable AI** with **6 key features**.
- Achieved **94.21%** accuracy with **CatBoost**, employing **SMOTE** for data balancing, **stratified K-Fold** for better generalization of classes, **LIME** for interpretability, and utilized **counterfactual analysis** to know minimal changes needed for desired outcomes.

YOUTUBE API CHANNEL COMPARATOR | Project | Source Code

- Built a YouTube channel comparison tool using **Python** and **YouTube Data API v3**, analyzing **19 video features**, with a **Streamlit** website for interactive visual analytics.
- Enhanced channel performance analytics by integrating **growth rate analysis**, **audience engagement metrics**, and **comment sentiment analysis using VADER**; led to a 20% increase in strategic insights and improved competitive benchmarking.

CERTIFICATES AND CERTIFICATIONS

- | | |
|--|----------------------------------|
| • Python NPTEL Certification issued by IIT Madras
Demonstrated proficiency in Python through coursework and assessments. | View Credentials |
| • Spoken Tutorial Python Certificate issued by IIT Bombay
Mastered foundational Python concepts through structured tutorials. | View Certificate |
| • AI ML Certification from SmartBridge in collaboration with Google
Acquired practical expertise in AI/ML frameworks and real-world applications. | View Credentials |

ACHIEVEMENTS

- Endorsed as an **Elite + Silver performer** (86/100) in IIT Madras's prestigious NPTEL Python Certification, demonstrating advanced Python proficiency.
- Secured 2nd place in the "Code Sprint" competition at TechnoVIT (VIT's Technical Fest) by demonstrating strong data structures proficiency.
